Our 111th Year

Best in the Long Run

We do our best to live up to that slogan. If we fail to meet your expectations please let us know.

Create a Riotous Rainbow of Spring Color with Bearded Irises

All you need is a sunny location (at least ½ day of sunshine) and well-drained soil. Irises don't like to sit with wet feet! Plan to space plants 12" to 18" apart.

You'll find several hundred varieties to choose from in this list. The small Miniature Dwarf Bearded are listed first, followed by groups that are increasingly taller in stature and later in bloom season. Please look at the photographs at www.longsgardens.com.

We saved the best for last – you'll find the very newest offerings from our Colorado hybridizers at the back of the booklet.

Shipping Times and Pick up Options

If you specify a particular ship date, we will endeavor to comply. Generally, orders received before July 1 are shipped in July and early August, orders received after July 1 are usually shipped in August. In order to insure that all orders are shipped to reach you at the proper planting time, we stop taking orders August 1st. However, if time and supply permit, we will accept a few orders after August 1st. Please call to check.

If you wish to pick up your order, there is no shipping charge, but you must pay the Boulder City tax of 8.845%. Orders may be picked up by prior arrangement on Thursday and Friday afternoons from noon to 6:00 or Saturday morning from 9:00 AM to noon in July and August.

If you live in the northern latitudes or at a high altitude, please order early so that we can ship your order in July. These short season climates need a head start.

For more information, please check our website,
www.longsgardens.com.

Guarantee

If there is any problem when you receive your shipment, please let us know right away. If any of the plants you purchase fail to grow for one full year we will replace them (although sometimes it will be necessary to substitute a different variety, but as close to the color as possible).

We do guarantee our iris to be true to name.

We do not guarantee the plants will flower the first spring after planting. Some plants will need an extra year to establish.

Spring hours and notes

May through early June (April 30th through June 12th this year) is the only time we maintain regular office hours. The rest of the year is by appointment only.

We keep our website, www.longsgardens.com, updated with hours, dates, and condition of the bloom. Please check it often or give us a call at 303-442-2353.

We hope you can visit during the spring bloom season.

Miniature Dwarf Bearded (MDB)

Diminutive Harbingers of Spring

At just 2"- 8" tall these tiny treasures are the earliest of the bearded iris to bloom. In our fields they usually start blooming in late March or early April. Miniature dwarfs thrive in a climate with a definite cold season and are best enjoyed in a rock garden or elevated planting. You'll want to make it easy to sniff their dainty blossoms – most are very fragrant!

EARLY START COLLECTION

A collection of 5 different Miniature Dwarfs

All labeled.

Just \$13.00

Bigger isn't always better. *The tall bearded iris are beautiful and showy, but don't limit your garden to just the "big guys". If you add some of the dwarfs and intermediates you can vary the height and extend the bloom season. Good things do come in small packages!*

Standard Dwarf Bearded (SDB) ~ *Versatile & Vigorous*

These gems of the Spring garden bloom later than Miniature Dwarf and earlier than Intermediate or Tall Bearded. They stand 8"-15" tall. SDBs will form clumps that provide you with wonderful mounds of color and nice cushions of spiky leaves.

Please see the next page for TROUT'S TREASURES, a collection of Standard Dwarf Bearded irises.

TROUT'S TREASURES

Our house cat, Trout, came to us from Uzbekistan. No, she didn't walk all the way, but came thanks to the Peace Corps and our neighbor. Trout, with her wide experience in the world, is content to stay put and help with selecting a wonderful collection of Standard Dwarf Bearded irises. She is short of stature and hardy, like these shorter beauties. She promises to give you a world class value for your money.

GOATS' GATHERINGS

Our newest residents, the goats, have grabbed with gusto the chance to select a grouping of great Intermediate Bearded irises for your garden. These cavorting, carefree, caprines have consented to not chew or take capricious chunks out of your iris before we ship them to you. The goats have observed these iris as the graze and are eager to choose just the right irises for you

Tall Bearded (TB)

Tried and True – Old and New

Most of the iris in our main listing are Tall Bearded, with stalks over 28” tall and as high as 40” (there are some Border Bearded (BB) that are 16”-28” tall). Their time of bloom ranges from mid-April in the southern states to late June in the far north and high elevations. Most varieties bloom once a year in the spring, although some will rebloom in the summer and fall in warm climates.

2016 INTRODUCTIONS

BRIGHTON CHARM (J. HALL 2016) TB 33" ML A ruffled white iris with yellow hafts and a yellow to white beard. High bud count and a reliable bloomer. It reminds me of the first glimpse of sunshine on a fresh blanket of snow. Honky Tonk Blues x Mystic's Muse.....\$45.00

CATCH A'BLUE STREAK (D. MILLER 2016) TB 36" ML A nice light silver blue-white self. Standards have a slight green midrib while the falls have a light blue midrib that extends from the very light blue beard to the tip of the falls. Both are more pronounced in cooler weather. Nicely branched and expect 7 to 9 buds\$45.00

COLORADO MOONBEAM (J. HALL 2016) TB 30" L Pure white standards and falls with a beaming yellow beard. This is a good grower and has good branching. A nice white. Butter Bar x Dazzling Gold.....\$40.00

CRACKERJACK KID (D. MILLER 2016) SDB 10" E-M Who doesn't like crackerjacks? Perky golden yellow standards and perky golden brown falls. Reddish orange beards make this one just plain ol' fun.....\$18.00

EXTREME CAUTION (D. MILLER 2016) SDB 10 M Use extreme caution. This gold yellow self exudes caution.....\$18.00

GET HAPPY (D. MILLER 2016) TB 34" E-M Let's get happy with the nice light yellow standards and the very light pinkish red falls. The golden yellow hafts are set off with a bright orange red beard. A great grower with excellent branching and bud count. Buds are spaced beautifully.....\$50.00

MIVERSON (D. MILLER 2016) TB 34" E-M The standards are a reddish brown with a very thin edge of beige. The falls are a darker red brown, while the white beards end with a white and yellow ray pattern. Increases easily and a good bud count.....\$45.00

PAM'S COURAGE (J. HALL 2016) TB 36" ML A brilliant, ruffled, dark, red violet self. A yellow beard with purple at the end. A robust grower and another iris with good branching. Sultry Mood x Capricious.....\$40.00

TRIGO PADIGO (D. MILLER 2016) TB 38" E-M Standards are pink, more of a grayish blue pink, while the falls are very light, almost white. The hafts are a more intense pink but everything is set off with a deep intense red beard. Very nicely branched with excellent spacing. Good bud count and a very good grower.....\$45.00
